

# Together, let's stop COVID-19 one arm at a time

The COVID-19 vaccines are safe, effective and approved by Health Canada.

Improved technology, worldwide collaboration, and increased government funding helped speed up the development of the vaccines.

The vaccine works to:

Recognize the virus

Destroy the  
infected cells

Produce antibodies  
to fight the virus

Remember the virus  
and how to fight it, if  
you are exposed to it again

Talk to a health care provider in your community, if you have questions about the vaccine.
